**\*\* IACUC Notice: IACUC/2024/07 \*\***

[Link to iRIMS-IACUC \(Animal Oversight\) page in OPDRT's website](#)

Dear Principal Investigators,

In conjunction with the launch of the [iRIMS-IACUC \(Animal Oversight\) module](#) on **17 September 2024**, please note the following points:

1. New IACUC applications submitted via the iORC system **after 16 September 2024, 18:00 hrs** will **not be accepted** and Principal Investigators must create and submit an application in [iRIMS-IACUC \(Animal Oversight\) module](#).
2. Subsequent amendment, renewal and closure of any iRIMS-IACUC application will have to be made through the [iRIMS-IACUC \(Animal Oversight\) module](#).
3. For IACUC applications which have already been approved in the iORC, amendments to them must be made and submitted via the iORC until the application is closed or expired.
4. Any protocol that has been reviewed by the IACUC more than a year ago but not approved **will be removed** in the iORC. You are required to submit a new application via [iRIMS-IACUC \(Animal Oversight\) module](#) for IACUC to review it. This is in accordance with the IACUC SOP in which applications that have not been approved within a year from the IACUC meeting date will have to be re-submitted for IACUC review.

You can refer to the [Joint-Circular](#) from IACUC and IBC for more information.

If you have any question, please feel free to either email [IACUC General Enquiries and Self Report Submissions](#) or contact any of the IACUC office staff [here](#)

We would be grateful if you could disseminate the information to your lab members

Thank You

**IACUC Office**
